

I am a new XM subscriber. One of the main reasons I bought XM was for the local weather and traffic. My job requires me to travel everyday and XM keeps me informed about the weather and traffic I may encounter. The traffic report helped me the other day on I-70E in Pennsylvania. There was a tractor trailer over turned and was blocking three lanes of the highway. XM informed me of the accident and allowed me to plan an alternative route around the accident to avoid any major delays. Thanks XM!

I pay for XM service and I feel that it is my right to listen to whatever I choose and XM's duty to supply me with what I want. I would hate to see XM radio change.

Please reject NAB's petition 04-160 and let the XM subscribers continue to get what we PAY for.
